INSTRUCTION MANUAL

SPLISH 'N SPLASH™ NEWBORN-TO-TODDLER TUB

⚠ WARNING

Drowning Hazard: Babies have **drowned** while using infant bath tubs and bath slings.

To prevent drowning:

- **Stay in arm's reach** of your baby.
- **Never** rely on a toddler or preschooler to help your baby or alert you to trouble. Babies have drowned even with other children in or near bath tub.
- Babies can drown in as little as **1 inch** of water. Use **as little water as possible** to bathe your baby.
- Use in **empty** adult tub or sink.
- Keep drain **open** in adult tub or sink.
- **NEVER** bathe baby until you have tested the water temperature. **ALWAYS** check water temperature before placing child into tub.
- Bath water should be between 90°F and 100°F (32.2°C and 37.8°C).
- Bath sling suitable for babies from birth (0-3 months, up to 10 lbs.).
- This product is not a toy. **DO NOT** allow children to play with it.

Fall Hazard: Babies have suffered **head injuries** falling from infant bath tubs and bath slings.

To prevent falls:

- Place tub **only** in adult tub or sink.
- **Never lift or carry** baby in tub and/or bath sling.
- **Never** use on uneven or elevated surfaces.
- **NEVER** leave children unattended.
- Discontinue use of product if damaged, broken, or disassembled.

YOUR TUB'S FEATURES

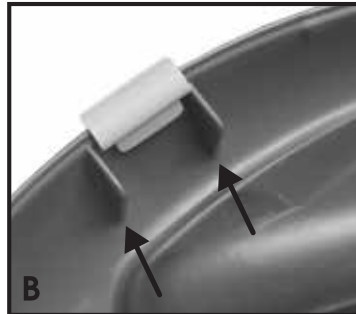

NEWBORN MODE: SETTING UP THE BATH SLING

NEWBORN BATH SLING IN INFANT TUB

NOTE: Never place more than 1 inch of water in tub. Always keep the drain open in the adult bath tub.

1. Remove sling from plastic bag, Securely fasten the 4 clips onto the baby bath tub (**Figure A**). There are special slots for the 4 clips molded on the baby bath tub (**Figure B**).
2. Place the baby bath tub into a full sized adult bath tub or on a flat surface.
3. Place newborn carefully onto bath sling to bathe.

Always check water temperature prior to bathing child. Bath water temperature should never exceed 100° F (37.8° C). **NEVER** leave child unattended while in bath.

INFANT MODE: SETTING UP THE TUB IN A SINK

Note: We recommend **Newborn Mode (Figure C)** for ages **0-6 weeks** and **Infant Mode (Figure D)** for **ages 6 weeks to 3 months** (or when child can sit up unassisted).

TO POSITION TUB IN SINK

Single Sink: Place notch of toddler side of tub on one side of sink edge and outer rim of newborn side of tub on the other side.

Double Sink: Place legs of newborn side of tub over sink divider and place the notch of the toddler side of tub on sink edge.

1. Shift tub to one side as far as it will go and push down firmly to confirm tub stability.
2. Shift tub in opposite direction as far as it will go and push down firmly to reconfirm tub stability.

CAUTION: Always test for secure fit in sink before placing baby in tub.

TODDLER MODE

1. Position Toddler Tub in a full-size bathroom tub or on a flat surface where you are bathing your child.

Always check water temperature prior to bathing child. Bath water temperature should be between 90°F (32.2° C) and 100° F (37.8° C). Always keep the drain open in the adult tub.

2. Place child carefully in Toddler Tub to bathe. (**Figure E**).

Fill the tub with 1 inch or less of water. **Note:** Never fill past the Max Water Level Line marked inside the tub (**Figure F**).
